

Ohio Administrative Code

Rule 4146-23-04 Matters which may be considered.

Effective: November 17, 2013

The issues at a hearing shall not be limited to the issue or issues set forth in the employer's appeal, and any other issues included in the director's reconsidered decision shall be heard, considered and a decision rendered thereon. If, at the time of filing an appeal, any prior appeal by the same appellant and involving the same or related issues has not been finally determined by the review commission, such prior appeal may, upon notice to the parties, be deemed merged into the latest appeal, and all pending appeals may be disposed of in a single decision.
