

Ohio Administrative Code

Rule 4301:1-1-37 Chemical analysis requirements.

Effective: June 4, 2004

(A) Except for those products registered pursuant to division (A)(8)(b) of section 4301.10 of the Revised Code, which are for sale in the state and are accompanied by a copy of the federal label and product approval, every distiller, bottler, manufacturer or compounder manufacturing prepared beer, wine, or mixed beverages, having an alcoholic content of not less than one-half of one per cent by volume and not more than twenty-one per cent by volume, and sold or distributed in the state of Ohio is required on demand to submit to the division for chemical analysis at least a twenty-five fluid ounce representative sample of each brand in the original container, such samples to be furnished without expense to the division. This rule shall also apply to holders of B-1, B-4 and B-5 permits who sell or distribute in Ohio beer, wine, and mixed beverages having an alcoholic content of not less than one-half of one per cent by volume and not more than twenty-one per cent by volume.

(B) All manufacturers and wholesale distributors of beer, wine and mixed beverages shall upon demand of the commission or division furnish without cost to the commission or division samples of any and all beer, wine and mixed beverages manufactured or sold by them, for the purpose of examination and chemical analysis.
