

Ohio Administrative Code

Rule 4501-21-09 Inspections.

Effective: May 18, 2006

(A) The department of public safety may conduct any inspections necessary to ensure a remedial driving course is being conducted in compliance with all applicable statutes, rules and regulations. Upon request, within a reasonable time period, a remedial driving course enterprise shall correct any problems the department identifies during inspection.

(B) All locations at which a course is being conducted or records are being maintained shall be accessible to the department during reasonable hours.

(C) Each applicant shall provide during the inspection certification that all facilities of a course conform to all federal, state, and local building, fire, and health regulations.

(D) A remedial driving course enterprise shall furnish upon request any and all records relating to operation of a remedial driving course. There may be announced or unannounced compliance surveys each year. The course manager or authorizing official shall make any records accessible for copying.
