

Ohio Administrative Code

Rule 4501:2-1-05 Motor vehicle equipment standards for steering.

Effective: June 18, 2006

Motor vehicles shall be inspected to determine if:

(A) Steering assembly operates normally.

(B) There is not more than the following movement (play) in steering wheel:

Power steering-two inches

Manual steering-three inches

(C) Sector shaft is secure.

(D) There is no binding or excessive lash in the steering assembly.
