

Ohio Administrative Code

Rule 4713-19-10 Tanning equipment posing safety risks.

Effective: February 16, 2018

A tanning facility shall not use any tanning equipment that is not fully functional or that poses a possible safety risk to a patron. If tanning equipment is broken, does not operate properly, or poses a safety risk, the tanning facility shall not use the tanning equipment until it is repaired. During the time period the tanning equipment is not in service, the tanning facility shall place a sign on it saying that the tanning equipment is out of service.
