

## Ohio Administrative Code

### Rule 4723-13-06 Minimum curriculum requirements for teaching a nursing task.

Effective: February 1, 2007

---

A licensed nurse shall include all of the following when teaching an unlicensed person to perform a nursing task:

- (A) Presentation of information on infection control and universal precautions;
  - (B) Presentation of information and directions on the concepts underlying the nursing task;
  - (C) Presentation of information and direction on how to correctly perform the specific nursing task according to current standards of practice following step-by-step directions readily available to the unlicensed person;
  - (D) Demonstration of the nursing task; and
  - (E) Observation and documentation of a satisfactory return demonstration by the unlicensed person of the nursing task.
-
