

Ohio Administrative Code

Rule 4729:5-9-02.9 Licensure of outpatient institutional pharmacies.

Effective: February 1, 2022

(A) As used in this rule, "outpatient institutional pharmacy" means a pharmacy located within or on the campus of an institutional facility that provides outpatient pharmacy services which is physically separate from, and not contiguous to, the area in which inpatient pharmacy services are provided.

(B) An outpatient institutional pharmacy shall have a separate terminal distributor of dangerous drugs license in addition to the license for the institutional facility or pharmacy. An outpatient institutional pharmacy shall comply with the requirements of Chapter 4729:5-5 of the Administrative Code.
