

Ohio Administrative Code

Rule 4731-1-06 Scope of practice: naprapathy.

Effective: December 24, 1992

Naprapathy is the treatment of diseased spinal connective tissue and ligaments by hand only. A practitioner of naprapathy shall not examine patients except by written and verbal inquiry, visual inspection and observation, and touch. Such practitioners shall not diagnose a patient's condition, but may determine whether or not application of naprapathy is advisable.
