

Ohio Administrative Code Rule 4759-5-03 Plan of treatment exemption.

Effective: November 30, 2019

For purposes of the exemption from licensure contained in division (F) of section 4759.10 of the Revised Code, a person when acting under the direction and supervision of a professional licensed under Title 47 of the Revised Code, need not be a licensed dietitian if the person is executing a plan of treatment authorized by and within the scope of practice of the supervising licensed professional. The written plan of treatment shall include orders, goals, objectives, and appropriate treatments. Frequency of treatment and response to interventions shall be monitored and reviewed by the licensed practitioner. The licensed practitioner shall initiate the treatment plan and shall be on site when the plan is carried out by the unlicensed person.
