

Ohio Administrative Code

Rule 4781-12-17 Manufactured home connections.

Effective: January 20, 2020

Each outlet from a manufactured home sanitary sewerdrainage system shall be directly connected to the lateral sanitary sewer with a sewer connector or other approved device. It shall be the responsibility of the operator to ensure that the installation of the sewer connection is performed and supervised by a properly licensed installer. There shall be no discharge of sewage onto the surface of the ground; nor shall there be any noticeable sewage odors in the manufactured home park.
