

Ohio Administrative Code Rule 4901:1-38-07 Level of incentives.

Effective: June 20, 2023

(A) The level of the incentives associated with any reasonable arrangement established pursuant to this chapter will be determined as part of the commission's review and approval of the applications filed pursuant to this chapter. Incentives will only be applicable to the service(s) taken from the electric utility by the customer receiving the incentives.

(B) Incentives may be based on, but not limited to:

(1) Demand discounts.

(2) Percentages of total bills, or portions of bills.

(3) Direct contributions.

(4) Reflections of cost savings to the electric utility.

(5) Shared savings.

(6) Some combination of the required criteria.

(C) Where the calculation of delta revenue under any reasonable arrangement under rule 4901:1-38-05 of the Administrative Code requires consideration of a customer's generation charges, the customer will be billed using utility-consolidated billing.
