Costs are claimed separately for FCM based on the statewide automated child welfare information system (SACWIS) population data.

(2) The results of the random moment sampling (RMS) are statistically applied to the social services cost pool or the child welfare cost pool to derive the costs that are allowable for the calculation of Title IV-E administration and training claim.

(3) The statewide automated child welfare information system (SACWIS) IV-E eligibility ratios are applied to the calculation from paragraph (D)(2) of this rule to obtain the total allowable Title IV-E administration and training costs.

(4) The Title IV-E FFP rate of either fifty per cent or seventy-five per cent is applied to the calculation in paragraph (D)(3) of this rule to determine the total Title IV-E claim.

(E) Title IV-E administration and training reimbursement.

(1) The Title IV-E claim determined in paragraph (D)(4) of this rule is reduced by no more than three per cent of the FFP received as described in section 5101.141 of the Revised Code.

(F) The definitions, requirements, and responsibilities contained in rule 5101:9-6-50 of the Administrative Code are applicable to this rule.
