

Ohio Administrative Code Rule 5501:1-8-04 Aeronautical study.

Effective: November 28, 2024

- (A) When the application process is complete, the office shall conduct an independent aeronautical study for the purposes of determining if a permit will be granted or denied.
- (B) The application and the conclusions of the aeronautical study are public records and available to any interested parties, including, but not limited to, airport boards, municipal and county governments' officials, airport owners and operators who make such request of the office.
- (C) The office may withhold their final determinations until the FAA has completed its study.
-
