

Ohio Administrative Code

Rule 901:1-5-05 Selling, moving, or disposing of cattle.

Effective: August 9, 1968

(A) No person shall sell, move or dispose of cattle within this state unless the cattle:

(1) Are classified as negative to a brucellosis test within thirty days prior to the date of sale, movement or disposal; or

(2) Are designated for immediate slaughter; or

(3) Are under twelve months of age; or

(4) Are official vaccinates under twenty four months of age; or

(5) Originate immediately and directly from certified brucellosis free herds; or

(6) Originate immediately and directly from a herd which has passed a complete negative brucellosis test conducted at a laboratory operated by the department of agriculture within sixty days prior to the date of sale, movement or disposal; or

(7) Originate from herds located in certified free counties if such herds were:

(a) Tested and classed as negative on the last area certification test and not less than five percent of the breeding animals are being tested by the market testing program annually; or

(b) Negative to brucellosis milk ring test within 120 days of the date of sale, movement or disposal;
or

(8) Are steers or spayed heifers.

(B) Each livestock market operator, livestock dealer or livestock trucker, at the time such animals are
