

Ohio Administrative Code

Rule 901:1-5-08 Recertifying a certified brucellosis free area.

Effective: August 9, 1968

(A) The department of agriculture may recertify a certified brucellosis-free area for an additional six year period if it meets all requirements for establishing a certified brucellosis-free area stated in regulation 901:1-5-07.

(B) If the percentage of infected herds in a formerly certified brucellosis-free area exceeds the limit for initial certified brucellosis-free status, the department shall designate it as a modified certified brucellosis area and may recertify it only when it meets the requirements for initial designation as a certified brucellosis-free area.
