

## Ohio Administrative Code Rule 901:11-2-44 Personnel health.

Effective: February 21, 2016

---

No person afflicted with a communicable disease shall be permitted in any room or compartment where milk and dairy products are prepared, manufactured, or otherwise handled. No person who has a discharging or infected wound, sore or lesion on hands, arms, or other exposed portion of the body shall work in any dairy processing rooms or in any capacity resulting in contact with milk or dairy products. Milk processors who have received reports, under this rule, from employees who have handled milk, dairy products or associated product contact surfaces shall immediately report these conditions to the director.

The director may require any or all of the measurers listed in section thirteen and section fourteen of the PMO.
