

Ohio Administrative Code Rule 901:12-1-02 Inhalant agents.

Effective: January 20, 2011

Carbon dioxide (CO₂):

- (A) Compressed carbon dioxide (CO₂) gas in cylinders is the only allowed source of carbon dioxide.
 - (B) Gas concentration must be maintained for at least one minute after death.
 - (C) Carbon dioxide is the only chemical to be used for euthanasia of animals intended for human or animal consumption.
-
