

Ohio Revised Code

Section 1509.23 Health and safety rules for drilling of wells and production of oil and gas.

Effective: September 10, 2012

Legislation: Senate Bill 315 - 129th General Assembly

(A) Rules of the chief of the division of oil and gas resources management may specify practices to be followed in the drilling and treatment of wells, production of oil and gas, and plugging of wells for protection of public health or safety or to prevent damage to natural resources, including specification of the following:

(1) Appropriate devices;

(2) Minimum distances that wells and other excavations, structures, and equipment shall be located from water wells, streets, roads, highways, rivers, lakes, streams, ponds, other bodies of water, railroad tracks, public or private recreational areas, zoning districts, and buildings or other structures. Rules adopted under division (A)(2) of this section shall not conflict with section 1509.021 of the Revised Code.

(3) Other methods of operation;

(4) Procedures, methods, and equipment and other requirements for equipment to prevent and contain discharges of oil and brine from oil production facilities and oil drilling and workover facilities consistent with and equivalent in scope, content, and coverage to section 311(j)(1)(c) of the "Federal Water Pollution Control Act Amendments of 1972," 86 Stat. 886, 33 U.S.C.A. 1251, as amended, and regulations adopted under it. In addition, the rules may specify procedures, methods, and equipment and other requirements for equipment to prevent and contain surface and subsurface discharges of fluids, condensates, and gases.

(5) Notifications;

(6) Requirements governing the location and construction of fresh water impoundments that are part of a production operation.

(B) The chief, in consultation with the emergency response commission created in section 3750.02 of the Revised Code, shall adopt rules in accordance with Chapter 119. of the Revised Code that specify the information that shall be included in an electronic database that the chief shall create and host. The information shall be that which the chief considers to be appropriate for the purpose of responding to emergency situations that pose a threat to public health or safety or the environment. At the minimum, the information shall include that which a person who is regulated under this chapter is required to submit under the "Emergency Planning and Community Right-To-Know Act of 1986," 100 Stat. 1728, 42 U.S.C.A. 11001, and regulations adopted under it.

In addition, the rules shall specify whether and to what extent the database and the information that it contains will be made accessible to the public. The rules shall ensure that the database will be made available via the internet or a system of computer disks to the emergency response commission and to every local emergency planning committee and fire department in this state.
