- (D)(1) The guidelines adopted under this section shall require school districts to collect information about individual students, staff members, or both in connection with any data required by division (B) or (C) of this section or other reporting requirements established in the Revised Code. The guidelines may also require school districts to report information about individual staff members in connection with any data required by division (B) or (C) of this section or other reporting requirements established in the Revised Code. The guidelines shall not authorize school districts to request social security numbers of individual students. The guidelines shall prohibit the reporting under this section of a student's name, address, and social security number to the state board of education or the department of education. The guidelines shall also prohibit the reporting under this section of any personally identifiable information about any student, except for the purpose of assigning the data verification code required by division (D)(2) of this section, to any other person unless such person is employed by the school district or the information technology center operated under section 3301.075 of the Revised Code and is authorized by the district or technology center to have access to such information or is employed by an entity with which the department contracts for the scoring or the development of state assessments. The guidelines may require school districts to provide the social security numbers of individual staff members and the county of residence for a student. Nothing in this section prohibits the state board of education or department of education from providing a student's county of residence to the department of taxation to facilitate the

distribution of tax revenue.

(2)(a) The guidelines shall provide for each school district or community school to assign a data verification code that is unique on a statewide basis over time to each student whose initial Ohio enrollment is in that district or school and to report all required individual student data for that student utilizing such code. The assignment of data verification codes for other entities, as described in division (D)(2)(c) of this section, the use of those codes, and the reporting and use of associated individual student data shall be coordinated by the department in accordance with state and federal law.

School districts shall report individual student data to the department through the information technology centers utilizing the code. The entities described in division (D)(2)(c) of this section shall report individual student data to the department in the manner prescribed by the department.

Except as provided in sections 3301.941, 3310.11, 3310.42, 3310.63, 3313.978, and 3317.20 of the Revised Code, at no time shall the state board or the department have access to information that would enable any data verification code to be matched to personally identifiable student data.

(b) Each school district and community school shall ensure that the data verification code is included in the student's records reported to any subsequent school district, community school, or state institution of higher education, as defined in section 3345.011 of the Revised Code, in which the student enrolls. Any such subsequent district or school shall utilize the same identifier in its reporting of data under this section.

(c) The director of any state agency that administers a publicly funded program providing services to children who are younger than compulsory school age, as defined in section 3321.01 of the Revised Code, including the directors of health, job and family services, mental health and addiction services, and developmental disabilities, shall request and receive, pursuant to sections 3301.0723 and 5123.0423 of the Revised Code, a data verification code for a child who is receiving those services.

(E) The guidelines adopted under this section may require school districts to collect and report data,

information, or reports other than that described in divisions (A), (B), and (C) of this section for the purpose of complying with other reporting requirements established in the Revised Code. The other data, information, or reports may be maintained in the education management information system but are not required to be compiled as part of the profile formats required under division (G) of this section or the annual statewide report required under division (H) of this section.

(F) Beginning with the school year that begins July 1, 1991, the board of education of each school district shall annually collect and report to the state board, in accordance with the guidelines established by the board, the data required pursuant to this section. A school district may collect and report these data notwithstanding section 2151.357 or 3319.321 of the Revised Code.

(G) The state board shall, in accordance with the procedures it adopts, annually compile the data reported by each school district pursuant to division (D) of this section. The state board shall design formats for profiling each school district as a whole and each school building within each district and shall compile the data in accordance with these formats. These profile formats shall:

(1) Include all of the data gathered under this section in a manner that facilitates comparison among school districts and among school buildings within each school district;

(2) Present the data on academic achievement levels as assessed by the testing of student achievement maintained pursuant to division (B)(1)(d) of this section.

(H)(1) The state board shall, in accordance with the procedures it adopts, annually prepare a statewide report for all school districts and the general public that includes the profile of each of the school districts developed pursuant to division (G) of this section. Copies of the report shall be sent to each school district.

(2) The state board shall, in accordance with the procedures it adopts, annually prepare an individual report for each school district and the general public that includes the profiles of each of the school buildings in that school district developed pursuant to division (G) of this section. Copies of the report shall be sent to the superintendent of the district and to each member of the district board of education.

(3) Copies of the reports received from the state board under divisions (H)(1) and (2) of this section shall be made available to the general public at each school district's offices. Each district board of education shall make copies of each report available to any person upon request and payment of a reasonable fee for the cost of reproducing the report. The board shall annually publish in a newspaper of general circulation in the school district, at least twice during the two weeks prior to the week in which the reports will first be available, a notice containing the address where the reports are available and the date on which the reports will be available.

(I) Any data that is collected or maintained pursuant to this section and that identifies an individual pupil is not a public record for the purposes of section 149.43 of the Revised Code.

(J) As used in this section:

(1) "School district" means any city, local, exempted village, or joint vocational school district and, in accordance with section 3314.17 of the Revised Code, any community school. As used in division (L) of this section, "school district" also includes any educational service center or other educational entity required to submit data using the system established under this section.

(2) "Cost" means any expenditure for operating expenses made by a school district excluding any expenditures for debt retirement except for payments made to any commercial lending institution for any loan approved pursuant to section 3313.483 of the Revised Code.

(K) Any person who removes data from the information system established under this section for the purpose of releasing it to any person not entitled under law to have access to such information is subject to section 2913.42 of the Revised Code prohibiting tampering with data.

(L)(1) In accordance with division (L)(2) of this section and the rules adopted under division (L)(10) of this section, the department of education may sanction any school district that reports incomplete or inaccurate data, reports data that does not conform to data requirements and descriptions published by the department, fails to report data in a timely manner, or otherwise does not make a good faith effort to report data as required by this section.

(2) If the department decides to sanction a school district under this division, the department shall

take the following sequential actions:

(a) Notify the district in writing that the department has determined that data has not been reported as required under this section and require the district to review its data submission and submit corrected data by a deadline established by the department. The department also may require the district to develop a corrective action plan, which shall include provisions for the district to provide mandatory staff training on data reporting procedures.

(b) Withhold up to ten per cent of the total amount of state funds due to the district for the current fiscal year and, if not previously required under division (L)(2)(a) of this section, require the district to develop a corrective action plan in accordance with that division;

(c) Withhold an additional amount of up to twenty per cent of the total amount of state funds due to the district for the current fiscal year;

(d) Direct department staff or an outside entity to investigate the district's data reporting practices and make recommendations for subsequent actions. The recommendations may include one or more of the following actions:

(i) Arrange for an audit of the district's data reporting practices by department staff or an outside entity;

(ii) Conduct a site visit and evaluation of the district;

(iii) Withhold an additional amount of up to thirty per cent of the total amount of state funds due to the district for the current fiscal year;

(iv) Continue monitoring the district's data reporting;

(v) Assign department staff to supervise the district's data management system;

(vi) Conduct an investigation to determine whether to suspend or revoke the license of any district employee in accordance with division (N) of this section;

(vii) If the district is issued a report card under section 3302.03 of the Revised Code, indicate on the report card that the district has been sanctioned for failing to report data as required by this section;

(viii) If the district is issued a report card under section 3302.03 of the Revised Code and incomplete or inaccurate data submitted by the district likely caused the district to receive a higher performance rating than it deserved under that section, issue a revised report card for the district;

(ix) Any other action designed to correct the district's data reporting problems.

(3) Any time the department takes an action against a school district under division (L)(2) of this section, the department shall make a report of the circumstances that prompted the action. The department shall send a copy of the report to the district superintendent or chief administrator and maintain a copy of the report in its files.

(4) If any action taken under division (L)(2) of this section resolves a school district's data reporting problems to the department's satisfaction, the department shall not take any further actions described by that division. If the department withheld funds from the district under that division, the department may release those funds to the district, except that if the department withheld funding under division (L)(2)(c) of this section, the department shall not release the funds withheld under division (L)(2)(b) of this section and, if the department withheld funding under division (L)(2)(d) of this section, the department shall not release the funds withheld under division (L)(2)(b) or (c) of this section.

(5) Notwithstanding anything in this section to the contrary, the department may use its own staff or an outside entity to conduct an audit of a school district's data reporting practices any time the department has reason to believe the district has not made a good faith effort to report data as required by this section. If any audit conducted by an outside entity under division (L)(2)(d)(i) or (5) of this section confirms that a district has not made a good faith effort to report data as required by this section, the district shall reimburse the department for the full cost of the audit. The department may withhold state funds due to the district for this purpose.

(6) Prior to issuing a revised report card for a school district under division (L)(2)(d)(viii) of this

section, the department may hold a hearing to provide the district with an opportunity to demonstrate that it made a good faith effort to report data as required by this section. The hearing shall be conducted by a referee appointed by the department. Based on the information provided in the hearing, the referee shall recommend whether the department should issue a revised report card for the district. If the referee affirms the department's contention that the district did not make a good faith effort to report data as required by this section, the district shall bear the full cost of conducting the hearing and of issuing any revised report card.

(7) If the department determines that any inaccurate data reported under this section caused a school district to receive excess state funds in any fiscal year, the district shall reimburse the department an amount equal to the excess funds, in accordance with a payment schedule determined by the department. The department may withhold state funds due to the district for this purpose.

(8) Any school district that has funds withheld under division (L)(2) of this section may appeal the withholding in accordance with Chapter 119. of the Revised Code.

(9) In all cases of a disagreement between the department and a school district regarding the appropriateness of an action taken under division (L)(2) of this section, the burden of proof shall be on the district to demonstrate that it made a good faith effort to report data as required by this section.

(10) The state board of education shall adopt rules under Chapter 119. of the Revised Code to implement division (L) of this section.

(M) No information technology center or school district shall acquire, change, or update its student administration software package to manage and report data required to be reported to the department unless it converts to a student software package that is certified by the department.

(N) The state board of education, in accordance with sections 3319.31 and 3319.311 of the Revised Code, may suspend or revoke a license as defined under division (A) of section 3319.31 of the Revised Code that has been issued to any school district employee found to have willfully reported erroneous, inaccurate, or incomplete data to the education management information system.

(O) No person shall release or maintain any information about any student in violation of this section. Whoever violates this division is guilty of a misdemeanor of the fourth degree.

(P) The department shall disaggregate the data collected under division (B)(1)(n) of this section according to the race and socioeconomic status of the students assessed.

(Q) If the department cannot compile any of the information required by division (H) of section 3302.03 of the Revised Code based upon the data collected under this section, the department shall develop a plan and a reasonable timeline for the collection of any data necessary to comply with that division.
