(B) The department shall use a system designed for collecting necessary data, calculating the value-added progress dimension, analyzing data, and generating reports, which system has been used previously by a nonprofit organization led by the Ohio business community for at least one year in the operation of a pilot program in cooperation with school districts to collect and report student achievement data via electronic means and to provide information to the districts regarding the academic performance of individual students, grade levels, school buildings, and the districts as a whole.

(C) The department shall not pay more than two dollars per student for data analysis and reporting

to implement the value-added progress dimension in the same manner and with the same services as under the pilot program described by division (B) of this section. Any data analysis conducted under this section by an entity under contract with the department shall be completed in accordance with timelines established by the superintendent of public instruction.

(D) The department shall share any aggregate student data and any calculation, analysis, or report utilizing aggregate student data that is generated under this section with the chancellor of the Ohio board of regents.
