

## Ohio Revised Code

### Section 3317.063 Reimbursing nonpublic school for mandated service costs.

Effective: September 29, 2013

Legislation: House Bill 59 - 130th General Assembly

---

The superintendent of public instruction, in accordance with rules adopted by the department of education, shall annually reimburse each chartered nonpublic school for the actual mandated service administrative and clerical costs incurred by such school during the preceding school year in preparing, maintaining, and filing reports, forms, and records, and in providing such other administrative and clerical services that are not an integral part of the teaching process as may be required by state law or rule or by requirements duly promulgated by city, exempted village, or local school districts. The mandated service costs reimbursed pursuant to this section shall include, but are not limited to, the preparation, filing and maintenance of forms, reports, or records and other clerical and administrative services relating to state chartering or approval of the nonpublic school, pupil attendance, pupil health and health testing, transportation of pupils, federally funded education programs, pupil appraisal, pupil progress, educator licensure, unemployment and workers' compensation, transfer of pupils, and such other education related data which are now or hereafter shall be required of such nonpublic school by state law or rule, or by requirements of the state department of education, other state agencies, or city, exempted village, or local school districts.

The reimbursement required by this section shall be for school years beginning on or after July 1, 1981.

Each nonpublic school which seeks reimbursement pursuant to this section shall submit to the superintendent of public instruction an application together with such additional reports and documents as the department of education may require. Such application, reports, and documents shall contain such information as the department of education may prescribe in order to carry out the purposes of this section. No payment shall be made until the superintendent of public instruction has approved such application.

Each nonpublic school which applies for reimbursement pursuant to this section shall maintain a separate account or system of accounts for the expenses incurred in rendering the required services for which reimbursement is sought. Such accounts shall contain such information as is required by

the department of education and shall be maintained in accordance with rules adopted by the department of education.

Reimbursement payments to a nonpublic school pursuant to this section shall not exceed an amount for each school year equal to three hundred sixty dollars per pupil enrolled in that nonpublic school.

The superintendent of public instruction may, from time to time, examine any and all accounts and records of a nonpublic school which have been maintained pursuant to this section in support of an application for reimbursement, for the purpose of determining the costs to such school of rendering the services for which reimbursement is sought. If after such audit it is determined that any school has received funds in excess of the actual cost of providing such services, said school shall immediately reimburse the state in such excess amount.

Any payments made to chartered nonpublic schools under this section may be disbursed without submission to and approval of the controlling board.
