

Ohio Revised Code

Section 3335.42 Tuberculosis and other diseases treatment facility.

Effective: August 29, 1975

Legislation: House Bill 250 - 111th General Assembly

The board of trustees of the Ohio state university shall operate and manage a treatment service for tuberculosis and other diseases as part of the college of medicine, which service shall be a center for teaching and research in the fields of tuberculosis and other diseases and a center for treatment of patients suffering from such diseases.

The board of trustees, on the recommendation of the president and other administrative officers of the university, shall adopt rules for the operation of the treatment service established under this section.

The board of trustees may enter into agreements with the director of the department of health for cooperative efforts in research in the fields of tuberculosis and other diseases and for the treatment of patients, suffering from such diseases, as may be under jurisdiction of the department of health. The board may enter into agreements with other public and private agencies for cooperative efforts in teaching, research, and patient care in the fields of tuberculosis and other diseases.
