

Ohio Revised Code

Section 3509.09 Poll list to identify electors requesting absent voter's ballot.

Effective: August 15, 2012

Legislation: Senate Bill 295 - 129th General Assembly

(A) The poll list or signature pollbook for each precinct shall identify each registered elector in that precinct who has requested an absent voter's ballot for that election.

(B)(1) If a registered elector appears to vote in that precinct and that elector has requested an absent voter's ballot for that election but the director has not received a sealed identification envelope purporting to contain that elector's voted absent voter's ballots for that election, the elector shall be permitted to cast a provisional ballot under section 3505.181 of the Revised Code in that precinct on the day of that election.

(2) If a registered elector appears to vote in that precinct and that elector has requested an absent voter's ballot for that election and the director has received a sealed identification envelope purporting to contain that elector's voted absent voter's ballots for that election, the elector shall be permitted to cast a provisional ballot under section 3505.181 of the Revised Code in that precinct on the day of that election.

(C)(1) In counting absent voter's ballots under section 3509.06 of the Revised Code, the board of elections shall compare the signature of each elector from whom the director has received a sealed identification envelope purporting to contain that elector's voted absent voter's ballots for that election to the signature on that elector's registration form. Except as otherwise provided in division (C)(3) of this section, if the board of elections determines that the absent voter's ballot in the sealed identification envelope is valid, it shall be counted. If the board of elections determines that the signature on the sealed identification envelope purporting to contain the elector's voted absent voter's ballot does not match the signature on the elector's registration form, the ballot shall be set aside and the board shall examine, during the time prior to the beginning of the official canvass, the poll list or signature pollbook from the precinct in which the elector is registered to vote to determine if the elector also cast a provisional ballot under section 3505.181 of the Revised Code in that precinct on the day of the election.

(2) The board of elections shall count the provisional ballot, instead of the absent voter's ballot, if both of the following apply:

(a) The board of elections determines that the signature of the elector on the outside of the identification envelope in which the absent voter's ballots are enclosed does not match the signature of the elector on the elector's registration form;

(b) The elector cast a provisional ballot in the precinct on the day of the election.

(3) If the board of elections does not receive the sealed identification envelope purporting to contain the elector's voted absent voter's ballot by the applicable deadline established under section 3509.05 of the Revised Code, the provisional ballot cast under section 3505.181 of the Revised Code in that precinct on the day of the election shall be counted as valid, if that provisional ballot is otherwise determined to be valid pursuant to section 3505.183 of the Revised Code.

(D) If the board of elections counts a provisional ballot under division (C)(2) or (3) of this section, the returned identification envelope of that elector shall not be opened, and the ballot within that envelope shall not be counted. The identification envelope shall be endorsed "Not Counted" with the reason the ballot was not counted.
