

Ohio Revised Code

Section 3701.046 Grants for women's health services - application.

Effective: July 10, 2014

Legislation: House Bill 232 - 130th General Assembly

The director of health is authorized to make grants for women's health services from funds appropriated for that purpose by the general assembly.

None of the funds received through grants for women's health services shall be used to provide abortion services. None of the funds received through these grants shall be used for counseling for or referrals for abortion, except in the case of a medical emergency. These funds shall be distributed by the director to programs that the department of health determines will provide services that are physically and financially separate from abortion-providing and abortion-promoting activities, and that do not include counseling for or referrals for abortion, other than in the case of medical emergency.

These women's health services include and are limited to the following: pelvic examinations and laboratory testing; breast examinations and patient education on breast cancer; screening for cervical cancer; screening and treatment for sexually transmitted diseases and HIV screening; voluntary choice of contraception, including abstinence and natural family planning; patient education and pre-pregnancy counseling on the dangers of smoking, alcohol, and drug use during pregnancy; education on sexual coercion and violence in relationships; and prenatal care or referral for prenatal care. These health care services shall be provided in a medical clinic setting by persons authorized under Chapter 4731. of the Revised Code to practice medicine and surgery or osteopathic medicine and surgery; authorized under Chapter 4730. of the Revised Code to practice as a physician assistant; licensed under Chapter 4723. of the Revised Code as a registered nurse or licensed practical nurse; or licensed under Chapter 4757. of the Revised Code as a social worker, independent social worker, licensed professional clinical counselor, or licensed professional counselor.

The director shall adopt rules under Chapter 119. of the Revised Code specifying reasonable eligibility standards that must be met to receive the state funding and provide reasonable methods by which a grantee wishing to be eligible for federal funding may comply with these requirements

for state funding without losing its eligibility for federal funding.

Each applicant for these funds shall provide sufficient assurance to the director of all of the following:

- (A) The program shall not discriminate in the provision of services based on an individual's religion, race, national origin, handicapping condition, age, sex, number of pregnancies, or marital status;
- (B) The program shall provide services without subjecting individuals to any coercion to accept services or to employ any particular methods of family planning;
- (C) Acceptance of services shall be solely on a voluntary basis and may not be made a prerequisite to eligibility for, or receipt of, any other service, assistance from, or participation in, any other program of the service provider;
- (D) Any charges for services provided by the program shall be based on the patient's ability to pay and priority in the provision of services shall be given to persons from low-income families.

In distributing these grant funds, the director shall give priority to grant requests from local departments of health for women's health services to be provided directly by personnel of the local department of health. The director shall issue a single request for proposals for all grants for women's health services. The director shall send a notification of this request for proposals to every local department of health in this state and shall place a notification on the department's web site. The director shall allow at least thirty days after issuing this notification before closing the period to receive applications.

After the closing date for receiving grant applications, the director shall first consider grant applications from local departments of health that apply for grants for women's health services to be provided directly by personnel of the local department of health. Local departments of health that apply for grants for women's health services to be provided directly by personnel of the local department of health need not provide all the listed women's health services in order to qualify for a grant. However, in prioritizing awards among local departments of health that qualify for funding under this paragraph, the director may consider, among other reasonable factors, the

comprehensiveness of the women's health services to be offered, provided that no local department of health shall be discriminated against in the process of awarding these grant funds because the applicant does not provide contraception.

If funds remain after awarding grants to all local departments of health that qualify for the priority, the director may make grants to other applicants. Awards to other applicants may be made to those applicants that will offer all eight of the listed women's health services or that will offer all of the services except contraception. No applicant shall be discriminated against in the process of awarding these grant funds because the applicant does not provide contraception.
