

## Ohio Revised Code

### Section 3704.01 Air pollution control definitions.

Effective: September 29, 2017

Legislation: House Bill 49 - 132nd General Assembly

---

As used in this chapter:

(A) "Administrator" means the administrator of the United States environmental protection agency or the chief executive of any successor federal agency responsible for implementation of the federal Clean Air Act.

(B) "Air contaminant" means particulate matter, dust, fumes, gas, mist, radionuclides, smoke, vapor, or odorous substances, or any combination thereof, but does not mean emissions from agricultural production activities, as defined in section 929.01 of the Revised Code, that are consistent with generally accepted agricultural practices, were established prior to adjacent nonagricultural activities, have no substantial, adverse effect on the public health, safety, or welfare, do not result from the negligent or other improper operations of any such agricultural activities, and would not be required to obtain a Title V permit. For the purposes of this chapter, agricultural production activities do not include the installation and operation of off-farm facilities for the storage or processing of agricultural products, including, but not limited to, alfalfa dehydrating facilities, rendering plants, and feed and grain mills, elevators, and terminals.

(C) "Air contaminant source" means each separate operation or activity that results or may result in the emission of any air contaminant.

(D) "Air pollution" means the presence in the ambient air of one or more air contaminants or any combination thereof in sufficient quantity and of such characteristics and duration as is or threatens to be injurious to human health or welfare, plant or animal life, or property, or as unreasonably interferes with the comfortable enjoyment of life or property.

(E) "Ambient air" means that portion of the atmosphere outside of buildings and other enclosures, stacks, or ducts that surrounds human, plant, or animal life or property.

(F) "Best available technology" means any combination of work practices, raw material specifications, throughput limitations, source design characteristics, an evaluation of the annualized cost per ton of pollutant removed, and air pollution control devices that have been previously demonstrated to the director of environmental protection to operate satisfactorily in this state or other states with similar air quality on substantially similar air pollution sources.

(G) "Change within a permitted facility" means, within the context of the Title V permit program established under section 3704.036 of the Revised Code, a change that is limited by a federally enforceable provision of an applicable Title V permit and that does not include physical, production, or other changes that are neither addressed nor limited by the federally enforceable portion of a Title V permit unless the change would result in a violation of a federally enforceable requirement or a modification under Title I of the federal Clean Air Act or would be subject to any requirements under Title IV of that act.

(H) "Emit" or "emission" means the release into the ambient air of an air contaminant.

(I) "Emission limitation" and "emission standard" mean a requirement that limits the quantity, rate, or concentration of emissions of air contaminants, including any requirement relating to the operation or maintenance of an air contaminant source.

(J) "Facility," for the purposes of the Title V permit program established under section 3704.036 of the Revised Code, means all of the emitting activities that are located on contiguous or adjacent properties that are under the control of the same person or persons or are under common control and that are in the same major group as described in the standard Industrial Classification Manual, 1987.

(K) "Federal Clean Air Act" means "Air Quality Act of 1967," 81 Stat. 485, 42 U.S.C. 1857, as amended by "Clean Air Act Amendments of 1970," 84 Stat. 1676, 42 U.S.C. 1857, "Act of November 18, 1971," 85 Stat. 464, 42 U.S.C. 1857, "Act of April 9, 1973," 87 Stat. 11, 42 U.S.C. 1857, "Act of June 24, 1974," 88 Stat. 248, 42 U.S.C. 1857, "Clean Air Act Amendments of 1977," 91 Stat. 685, 42 U.S.C. 7401, "Safe Drinking Water Act Amendments of 1977," 91 Stat. 1393, 42 U.S.C. 7401, "Clean Air Act Amendments of 1990," 104 Stat. 2399, 42 U.S.C.A. 7401, and any other amendments that have been or may hereafter be adopted, or any supplements to those acts and laws of the United States that have been or may hereafter be enacted in substitution therefor, together

with any regulations that have been or may hereafter be adopted by the administrator by virtue of and in accordance with those acts and laws. Reference to a particular title or section of the federal Clean Air Act includes any amendments that have been or may hereafter be enacted in substitution therefor and any regulations pertaining to the title or section that have been or may hereafter be adopted by the administrator by virtue of and in accordance with the federal Clean Air Act.

(L) "Hazardous air pollutant" means any pollutant listed under section 112(b) of the federal Clean Air Act.

(M) "Implementation plan" means a program for the prevention and abatement of air pollution in the state that has been promulgated or approved by the administrator pursuant to the federal Clean Air Act.

(N) "Local air pollution control authority" includes all of the following unless terminated by the political subdivisions represented thereby:

(1) All of the following agencies representing the following political subdivisions, as those agencies existed on July 1, 1993:

(a) The Akron regional air quality management district representing Medina, Summit, and Portage counties;

(b) The Canton city health department representing Stark county;

(c) The Hamilton county department of environmental services, southwest Ohio air quality agency representing Butler, Warren, Hamilton, and Clermont counties;

(d) The city of Cleveland division of the environment representing Cuyahoga county;

(e) The regional air pollution control agency representing Darke, Preble, Miami, Montgomery, Clark, and Greene counties;

(f) The Lake county general health district representing Lake and Geauga counties;

(g) The Portsmouth city health department representing Brown, Adams, Scioto, and Lawrence counties;

(h) The city of Toledo division of pollution control representing Lucas county and the city of Rossford in Wood county;

(i) The Mahoning-Trumbull air pollution control agency, city of Youngstown, representing Trumbull and Mahoning counties.

(2) Any successor to an existing local air pollution control authority listed in divisions (N)(1)(a) to (i) of this section that results from a change in the political subdivisions comprising the local air pollution control authority through the withdrawal of a political subdivision from membership in the local air pollution control authority or the inclusion of an additional political subdivision in the membership of the local air pollution control authority;

(3) Any new local air pollution control authority established on or after July 1, 1993, by one or more political subdivisions of this state for the purposes of exercising the powers reserved to political subdivisions of this state under division (A) of section 3704.11 of the Revised Code.

(O) "Person" means the federal government or any agency thereof, the state or any agency thereof, any political subdivision or any agency thereof, or any public or private corporation, individual, partnership, or other entity.

(P) "Research and development sources" means sources whose activities are conducted for nonprofit scientific or educational purposes; sources whose activities are conducted to test more efficient production processes or methods for preventing or reducing adverse environmental impacts, provided that the activities do not include the production of an intermediate or final product for sale or exchange for commercial profit, except in a de minimis manner; a research or laboratory source the primary purpose of which is to conduct research and development into new processes and products, that is operated under the close supervision of technically trained personnel, and that is not engaged in the manufacture of products for sale or exchange for commercial profit, except in a de minimis manner; the temporary use of normal production sources in a research and development

mode to test the technical or commercial viability of alternative raw materials or production processes, provided that the use does not include the production of an intermediate or final product for sale or exchange for commercial profit, except in a de minimis manner; the experimental firing of any fuel or combination of fuels in a boiler, heater, furnace, or dryer for the purpose of conducting research and development of more efficient combustion or more effective prevention or control of air pollutant emissions, provided that, during those periods of research and development, the heat generated is not used for normal production purposes or for producing a product for sale or exchange for commercial profit, except in a de minimis manner; and such other similar sources as the director may prescribe by rule.

(Q) "Responsible official" means one of the following, as applicable:

(1) For a corporation: a president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, any other person who performs similar policy or decision-making functions for the corporation, or a duly authorized representative of any such person if the representative is responsible for the overall operation of one or more manufacturing, production, or operating facilities applying for or subject to a Title V permit and if one of the following applies:

(a) The facilities employ more than two hundred fifty individuals or have gross annual sales or expenditures exceeding twenty-five million dollars, in second quarter 1980 dollars;

(b) The delegation of authority to the representative is approved in advance by the director.

(2) For a partnership or sole proprietorship: a general partner or the proprietor, respectively.

(3) For the federal government or any agency thereof, the state or any agency thereof, a political subdivision or any agency thereof, or any other public agency, either a principal executive officer or authorized elected official. For the purposes of this division, a principal executive officer of a federal agency includes the chief executive officer having responsibility for the overall operation of a principal geographic unit of the agency.

(4) For affected sources, both of the following:

(a) The designated representative insofar as actions, standards, requirements, or prohibitions under Title IV of the federal Clean Air Act or regulations adopted under it are concerned;

(b) The designated representative for any other purposes under 40 C.F.R. part 70.

(R) "Small business stationary source" means any building, structure, facility, or installation that emits any federally regulated air pollutant and is owned or operated by a person who employs one hundred or fewer individuals; is a small business concern as defined in the "Small Business Act," 72 Stat. 384 (1958), 15 U.S.C.A. 632, as amended; is not a major stationary source as defined in section 302(j) of the federal Clean Air Act; does not emit fifty tons or more per year of any federally regulated air pollutant or any hazardous air pollutant; and emits less than seventy-five tons per year of all federally regulated air pollutants.

(S) "Title V permit" means an operating permit required to be issued by the state under section 502 of the federal Clean Air Act and issued under section 3704.036 of the Revised Code and rules adopted under it.

(T) For the purposes of the Title V permit program established under this chapter and rules adopted under it, all terms defined in 40 C.F.R. part 70 have the same meaning as in that part.
