

Ohio Revised Code

Section 3707.06 Notice to be given of prevalence of infectious diseases.

Effective: February 12, 2004

Legislation: House Bill 6 - 125th General Assembly

(A) Each physician or other person called to attend a person suffering from cholera, plague, yellow fever, typhus fever, diphtheria, typhoid fever, or any other disease dangerous to the public health, or required by the department of health to be reported, shall report to the health commissioner within whose jurisdiction the sick person is found the name, age, sex, and color of the patient, and the house and place in which the sick person may be found. In like manner, the owner or agent of the owner of a building in which a person resides who has any of the listed diseases, or in which are the remains of a person having died of any of the listed diseases, and the head of the family, immediately after becoming aware of the fact, shall give notice thereof to the health commissioner.

(B) No person shall fail to comply with the reporting requirements of division (A) of this section.

(C) Information reported under this section that is protected health information pursuant to section 3701.17 of the Revised Code shall be released only in accordance with that section. Information that does not identify an individual may be released in summary, statistical, or aggregate form.
