

Ohio Revised Code

Section 3714.073 Fee for disposal of debris - collection - disposition.

Effective: January 1, 2016

Legislation: House Bill 64 - 131st General Assembly

(A) In addition to the fee levied under division (A)(1) of section 3714.07 of the Revised Code, beginning July 1, 2005, there is hereby levied on the disposal of construction and demolition debris at a construction and demolition debris facility that is licensed under this chapter or at a solid waste facility that is licensed under Chapter 3734. of the Revised Code and on the disposal of asbestos or asbestos-containing materials or products at a construction and demolition debris facility that is licensed under this chapter or at a solid waste facility that is licensed under Chapter 3734. of the Revised Code the following fees:

(1) A fee of twelve and one-half cents per cubic yard or twenty-five cents per ton, as applicable, the proceeds of which shall be deposited in the state treasury to the credit of the soil and water conservation district assistance fund created in section 940.15 of the Revised Code;

(2) A fee of thirty-seven and one-half cents per cubic yard or seventy-five cents per ton, as applicable, the proceeds of which shall be deposited in the state treasury to the credit of the recycling and litter prevention fund created in section 3736.03 of the Revised Code.

(B) The owner or operator of a construction and demolition debris facility or a solid waste facility, as a trustee of the state, shall calculate the amount of money generated from the fees levied under this section and remit the money from the fees in the manner that is established in divisions (A)(2) and (3) of section 3714.07 of the Revised Code for the fee that is levied under division (A)(1) of that section and may enter into an agreement for the quarterly payment of money generated from the fees in the manner established in division (B) of that section for the quarterly payment of money generated from the fee that is levied under division (A)(1) of that section.

(C) The amount of money that is calculated by the owner or operator of a construction and demolition debris facility or a solid waste facility and remitted to a board of health or the director of environmental protection, as applicable, pursuant to this section shall be transmitted by the board or director to the treasurer of state not later than forty-five days after the receipt of the money to be

credited to the soil and water conservation district assistance fund or the recycling and litter prevention fund, as applicable.

(D) This section does not apply to the disposal of construction and demolition debris at a solid waste facility that is licensed under Chapter 3734. of the Revised Code if the owner or operator of the facility chooses to collect fees on the disposal of the construction and demolition debris and asbestos or asbestos-containing materials or products that are identical to the fees that are collected under Chapters 343. and 3734. of the Revised Code on the disposal of solid wastes at that facility.

(E) This section does not apply to the disposal of source separated materials that are exclusively composed of reinforced or nonreinforced concrete, asphalt, clay tile, building or paving brick, or building or paving stone at a construction and demolition debris facility that is licensed under this chapter when either of the following applies:

(1) The materials are placed within the limits of construction and demolition debris placement at the facility as specified in the license issued to the facility under section 3714.06 of the Revised Code, are not placed within the unloading zone of the facility, and are used as a fire prevention measure in accordance with rules adopted by the director under section 3714.02 of the Revised Code.

(2) The materials are not placed within the unloading zone of the facility or within the limits of construction and demolition debris placement at the facility as specified in the license issued to the facility under section 3714.06 of the Revised Code, but are used as fill material, either alone or in conjunction with clean soil, sand, gravel, or other clean aggregates, in legitimate fill operations for construction purposes at the facility or to bring the facility up to a consistent grade.
