

Ohio Revised Code

Section 4761.05 Issuing license, permits.

Effective: October 17, 2019

Legislation: House Bill 166 - 133rd General Assembly

(A) The state medical board shall issue a license to any applicant who complies with the requirements of section 4761.04 of the Revised Code, files the prescribed application form, and pays the fee or fees required under section 4761.07 of the Revised Code. The license entitles the holder to practice respiratory care.

(B)(1) The board shall issue a limited permit to any applicant who meets the requirements of division (A)(1) of section 4761.04 of the Revised Code, files an application on a form furnished by the board, pays the fee required under section 4761.07 of the Revised Code, and meets either of the following requirements:

(a) Is enrolled in and is in good standing in a respiratory care educational program approved by the board that meets the requirements of division (A)(2) of section 4761.04 of the Revised Code leading to a degree or certificate of completion or is a graduate of the program;

(b) Is employed as a provider of respiratory care in this state and was employed as a provider of respiratory care in this state prior to March 14, 1989.

(2) If no grounds apply under section 4761.09 of the Revised Code for denying a limited permit to the applicant and the applicant meets the requirements of division (B) of this section, the board shall issue a limited permit to the applicant.

The limited permit authorizes the holder to provide respiratory care under the supervision of a respiratory care professional. A person issued a limited permit under division (B)(1)(a) of this section may practice respiratory care under the limited permit for not more than three years after the date the limited permit is issued, except that the limited permit shall cease to be valid one year following the date of receipt of a certificate of completion from a board-approved respiratory care education program or immediately if the holder discontinues participation in the educational program.

The holder shall notify the board as soon as practicable when the holder completes a board-approved respiratory care education program or discontinues participation in the educational program.

This division does not require a student enrolled in an educational program leading to a degree or certificate of completion in respiratory care approved by the board to obtain a limited permit to perform any duties that are part of the required course of study.

(3) A person issued a limited permit under division (B)(1)(b) of this section may practice under a limited permit for not more than three years, except that this restriction does not apply to a permit holder who, on March 14, 1989, has been employed as a provider of respiratory care for an average of not less than twenty-five hours per week for a period of not less than five years by a hospital.

(4) During the three-year period in which a person may practice under a limited permit, the person shall apply for renewal on an annual basis in accordance with section 4761.06 of the Revised Code.

(5) The board may revoke a limited permit upon proof satisfactory to the board that the permit holder has engaged in practice in this state outside the scope of the permit, that the holder has engaged in unethical conduct, or that there are grounds for action against the holder under section 4761.09 of the Revised Code.

(C) The holder of a license or limited permit issued under this section shall either provide verification of licensure or permit status from the board's internet web site on request or prominently display a wall certificate in the license holder's office or place where the majority of the holder's practice is conducted.
