

Ohio Revised Code

Section 5119.41 Residential state supplement program.

Effective: July 1, 2017

Legislation: Senate Bill 319 - 131st General Assembly

(A) As used in this section:

- (1) "Nursing facility" has the same meaning as in section 5165.01 of the Revised Code.
- (2) "Residential state supplement administrative agency" means the department of mental health and addiction services or, if the department designates an entity under division (C) of this section for a particular area, the designated entity.
- (3) "Residential state supplement program" means the program administered pursuant to this section.

(B) The department of mental health and addiction services shall implement the residential state supplement program under which the state supplements the supplemental security income payments received by aged, blind, or disabled adults under Title XVI of the "Social Security Act," 42 U.S.C. 1381 et seq. Residential state supplement payments shall be used for the provision of accommodations, supervision, and personal care services to social security, supplemental security income, and social security disability insurance recipients who the department determines are at risk of needing institutional care.

(C) In implementing the program, the department may designate one or more entities to be responsible for providing administrative services regarding the program. The department may designate an entity to be a residential state supplement administrative agency under this division either by entering into a contract with the entity to serve in that capacity or by otherwise delegating to the entity the responsibility to serve in that capacity.

(D) For an individual to be eligible for residential state supplement payments, all of the following must be the case:

(1) Except as provided by division (G) of this section, the individual must reside in one of the following living arrangements:

(a) A residential care facility licensed by the department of health under Chapter 3721. of the Revised Code or an assisted living program as defined in section 1 73.51 of the Revised Code;

(b) A class two residential facility licensed by the department of mental health and addiction services under section 5119.34 of the Revised Code.

(2) If a residential state supplement administrative agency is aware that an individual enrolled in the program has mental health needs, the agency shall refer the individual for an assessment pursuant to division (A) of section 340.091 of the Revised Code.

(3) The individual satisfies all eligibility requirements established by rules adopted under division (E) of this section.

(4) An individual residing in a living arrangement housing more than sixteen individuals shall not be eligible for inclusion in the program unless the director of mental health and addiction services specifically waives this size limitation with respect to that individual in that living arrangement. An individual with such a waiver as of October 1, 2015, shall remain eligible for the program as long as the individual remains in that living arrangement.

(E) The director of mental health and addiction services and medicaid director shall adopt rules in accordance with Chapter 119. of the Revised Code as necessary to implement the residential state supplement program.

To the extent permitted by Title XVI of the "Social Security Act," and any other provision of federal law, the medicaid director may adopt rules establishing standards for adjusting the eligibility requirements concerning the level of impairment a person must have so that the amount appropriated for the program by the general assembly is adequate for the number of eligible individuals. The rules shall not limit the eligibility of disabled persons solely on a basis classifying disabilities as physical or mental. The medicaid director also may adopt rules that establish eligibility standards for aged, blind, or disabled individuals who reside in one of the homes or facilities specified in division (D)(1)

of this section but who, because of their income, do not receive supplemental security income payments. The rules may provide that these individuals may include individuals who receive other types of benefits, including, social security payments or social security disability insurance benefits provided under Title II of the "Social Security Act," 42 U.S.C. 401, et seq. Notwithstanding division (B) of this section, such payments may be made if funds are available for them.

The director of mental health and addiction services may adopt rules establishing the method to be used to determine the amount an eligible individual will receive under the program. The amount the general assembly appropriates for the program may be a factor included in the method that director establishes.

(F) The county department of job and family services of the county in which an applicant for the residential state supplement program resides or the department of medicaid shall determine whether the applicant meets income and resource requirements for the program.

(G) An individual in a licensed or certified living arrangement receiving state supplementation on November 15, 1990, under former section 5101.531 of the Revised Code shall not become ineligible for payments under this section solely by reason of the individual's living arrangement as long as the individual remains in the living arrangement in which the individual resided on November 15, 1990.

(H) The county department of job and family services from which the person is receiving benefits or the department of medicaid shall notify each person denied approval for payments under this section of the person's right to a hearing. On request, the hearing shall be provided in accordance with section 5101.35 of the Revised Code.
